

Name _____

IV

Essentials

I recognise the place value of each digit in a 4-digit number.

I can count in multiples of 6, 7, 9, 25 and 1000.

I can recall \times and \div facts for all multiplication tables up to 12×12 .

I can add and subtract numbers with up to 4 digits.

I can recognise and show, using diagrams, families of common equivalent fractions.

I can multiply:
2-digit \times 1-digit
3-digit \times 1-digit
using grid method

I can read, write and convert time between analogue and digital 12 and 24 hour clocks.

I can convert between different units of measure.

I can compare and classify 2-d and 3-d shapes.

Number

I can round any number to the nearest 10, 100 or 1000.

I can count backwards in to negative numbers.

I can compare numbers with the same number of decimal places up to 2 decimal places.

Addition and subtraction

I can find 1000 more or less than a given number.

I can use inverse operations to check an answer.

I can solve addition and subtraction 2-step problems.

Fractions and Decimals

I can round decimals with 1 decimal place to nearest whole number.

I recognise and write decimal equivalents to $\frac{1}{4}$, $\frac{1}{2}$ and $\frac{3}{4}$ and any number of tenths and hundredths.

I can add and subtract fractions with the same denominator.

I understand hundredths and can count up and down in hundredths.

Measurements

I can find the area of shapes by counting squares.

I can measure and calculate perimeter of shapes with straight sides.

I can convert from hours to minutes; minutes to seconds; years to months; weeks to days.

I can estimate, compare and calculate different measures.

Geometry

I can identify lines of symmetry in 2-d shapes and complete simple symmetric patterns.

I describe movements between positions as translations.

I can describe positions on a grid as coordinates in first quadrant.

I can identify acute and obtuse angles

Statistics

I can interpret and present discrete and continuous data, including using bar charts and line graphs.

Multiplication and division

I can use place value and factor pairs to multiply and divide mentally.
Eg $6 \times 20 =$
 $120 \div 4 =$
